

**CANDIDATE**

Brothers, Anthony

<b><i>What are the benefits of a post-secondary institution in your municipality?</i></b>	<b><i>What are the key challenges of being the host community of a post-secondary institution?</i></b>	<b><i>How do you plan to address these challenges?</i></b>
<p>I believe that we deserve to have a post-secondary institution. We as citizens of Windsor, have sponsored the university for many years, and it continues to thrive.</p>	<p>Competing with other cities. We had the population, 5 years ago. However as these trying times, that are before us, keeping Windsor families here, will be a challenge. We are at a crossroads, and we must head in the correct direction!</p>	<p>To make Windsor a family oriented place to live. We have a beautiful waterfront, that is not properly used. We also have Jackson Park. A lot of property, not used properly. With the potential that Windsor has, we need to invest into it. With the best weather in Ontario, we need to utilize it. Doing this will bring revenue to Windsor. This may bring the people back, that have left, and it will keep the others here!!</p>
